

Day 1 October 5, 2018 Conference Day

Speakers

Time / Details

9:00 am - 10:15 am

Full Face Rehabs with Neurotoxins, Fillers & Dentistry

Professor Dr. Marcel Wainwright

We are proud to announce, Prof. Dr. Marcel Wainwright as a presenter at the 2018 IAFA Aesthetic Symposium. Dr. Wainwright with the Swiss firm Teoxane has developed an Hyaluronic Acid (HA) to treat gingival problems (Periodontitis and Gingivitis) and black triangle between teeth (gum recession). Wainwright is a fellow of the IADFE (International Academy for Dental and Facial Esthetics, NY) and President of the Swedish DIFNE (Dental International Filler and Neurotoxin Education).

Professor Wainwright has published more than 60 articles and scientific papers, contributed his works to public books and was part of the dental olympic team 2008 in Beijing and 2012 in London. He is a visiting professor of the Universities of Guangzhou, Dalian, Mahidol, Leuven and Chapel Hill. His courses cover topics such as, soft tissue management with BTX and dermal fillers. His research focus is based on minimal invasive ultrasonic surgical procedures and intra-oral application of cross linked hyaluronic acid.

10:15 am - 11:00 am

Optimizing Patient Outcomes with the latest Non-invasive Combination Therapies

Dr. Kian Karimi, MD, FACS

Kian Karimi MD, FACS is a double-board certified facial plastic surgeon / head and neck surgeon. Originally from Indiana, Dr. Kian received his medical degree at Indiana University School of Medicine and graduated at the top of his class, earning him membership into the Alpha Omega Alpha honor society. Dr. Kian completed his residency at the University of Florida and fellowship in facial plastic surgery at the University of Toronto. Dr. Kian maintains an active practice in facial plastic surgery, head and neck surgery, and endoscopic endonasal skull base surgery in Los Angeles, California.

Dr. Kian is serving his fifth year as one of the team plastic surgeons for the Los Angeles Kings Hockey organization. He is a volunteer lecturer and clinical instructor for the UCLA medical students and residents. Dr. Kian is nationally recognized and has been featured on EXTRA! and CBS 'The Doctors' for his cutting edge, minimally invasive aesthetic techniques.

NEW! Live Demo Session!

11:00 am - 12:00 pm

Integrated Approach Using PDO threads and Microcannulas for HA filler injections mixed with PRF (Platelet Rich Fibrin)

Hosted by Dr. Kian Karimi

12:00 pm - 1:30 pm

Charity Lunch & Awards Ceremony

1:30 pm - 5:30 pm

Interactive Panel Presentations

1:30 pm - 2:00 pm

Photographic Lighting & Contour Techniques with Fillers and Neurotoxins

Marianne Azneer, PA-C
International Injectables Trainer

2:00 pm - 2:30 pm

Treating Facial Asymmetry with Botulinum Toxin

Dr. Mike Golsen, DMD, MBA

2:30 pm - 3:00 pm

Building Confidence as an Injector and in Assessing Patient Needs

Natausha Spears, RN, BS

3:00 pm - 3:30 pm

Recognizing the Strange in Facial Aesthetics

Corinn Singletary, PA-C

Speakers

Topics

3:30 pm - 4:00 pm

Advanced Concepts in Facial Anatomy to Avoid Complications in the Danger Zones

Hosted by Dr. Terry Alford, DMD

4:00 pm - 4:30 pm

The Latest Findings in Neurotoxins for Head and Neck Therapy

Hosted by Dr. Ricardo Perez, DDS

4:30 pm - 5:00 pm

Skincare Essentials For Facial Injectable Patients

Illanit Samuals, PA-C

6:30 pm

Sunset Cocktail Social!

“The speakers make sure everybody gets the most up-to-date information and techniques and they also make sure to cover all your individual questions and doubts. Thanks IAFA!”

Dr. Andreina C. Vitto D.D.S.,MSD, IN

“I enjoyed the presentation and the Cadaver demonstration. The IAFA organization is top notch. I can't wait until the 2015 Annual IAFA Meeting!”

Dr. Karl Rayan, D.D.S, FL

The Lobby of the InterContinental Hotel in Miami, FL

8:00 am - 9:00 am

Registration, Breakfast, Meet & Greet

9:00 am - 12:00 pm

Morning Workshops**Cadaver Anatomy/ Injection Workshop**Presented by: [Natausha Spears, RN, BS](#), [Dr. Terry Alford, DMD](#), & [Corinn Singletary, PA-C](#)

Advance your skills with the most hands-on anatomical training for facial injectables. Working in small groups, participants will dissect cadavers to identify pertinent anatomy (muscular structures, fat pads, dermal depths) and learn correct injection techniques to avoid complications and adverse effects.

Combination Therapy Workshop: PRP, Micro-Needling, Radio-frequency, IPL, Lasers

Presented by:

[Dr. Ryan Fleming](#), [Kara Moncrief](#), [Global Clinical Trainer & Marianne Azneer, PA-C](#), [International Injectables Trainer](#)

Understanding the main treatment modalities and technology in aesthetics is critical to becoming a successful provider. This comprehensive workshop will allow participants to learn about various treatment modalities and how to best combine them to provide patients with the most optimal aesthetic results. Participants will get to learn and observe the Combination Therapy protocol, including the use of Lasers, RF, IPL and Microneedling.

Team Training WorkshopPresented by: [Dr. Mike Golsen, DMD, MBA](#) & [Ana Delgado](#), [Expert Industry Consultant](#)

Our team training workshop is designed to teach your staff the key fundamentals needed to successfully launch the multi-billion dollar industry of facial injectables. During this A-Z training, an expert consultant will provide your team with invaluable business pearls that will set you aside from the competition. Your team will gain the confidence and knowledge needed to seamlessly implement injectables and be fully on board to help brand, market and sell these high-demand treatments in your practice.

12:00 pm

Lunch

12:30 pm

Implementing Growth Factor Technology Lunch & Learn*** Complimentary Workshop with Benev Gift!**

1:30 pm - 5:30 pm

Afternoon Workshops**Absorbable PDO Threads Training Workshop***Facilitated by: [Marianne Azneer, PA-C](#), [International Injectables Trainer](#) & [Dr. Adherbal "Herb" De Souza Neto, DNP](#)

This innovative workshop features training on the latest advancements for Absorbable PDO threads, an innovative, minimally invasive & effective technique to lift and tighten sagging skin tissue. This workshop training will show participants various techniques using basic (Nu-Mesh) PDO threads. These new non-invasive procedures consist of using absorbable PDO (Polydioxanone) threads to achieve safe, in-office tightening and repositioning of the skin. The procedure requires no surgical skills and delivers great results with virtually no complications. The threads are placed in the superficial tissues and can be used anywhere on the face and body.

The procedure is performed in-office without any anesthesia. The treated area then mounts a controlled inflammatory response to the threads to provide the desired effect. Each participant will have the opportunity to participate in treatment and observe various cases for maximum learning during the 4.5 hour workshop.

***Advanced Practitioners Only**
Certificate of completion will be supplied to each attendee as part of the registration fee.

TMD & Myofascial Pain Interactive Workshop

Bonus: *Includes Muscle Evaluation on a Cadaver

Facilitated by: Dr. Mike Golsen, DMD, Dr. Ricardo Perez, DDS & Dr. Terry Alford, DMD

This workshop offers a step-by-step comprehensive way to identify, examine, evaluate and treatment plan for patients with TMD and Myofascial pain in your practice. Identify trigger points and learn the practical application of neurotoxins to manage TMD symptoms.

For the most comprehensive anatomy perspective when treating TMD patients, participants will have the opportunity to identify muscles and feel injection technique on a dissected cadaver.

Absorbable PDO Threads Workshop

NEW! Extreme Makeovers: Facial Sculpting Workshop

Working in small groups, participants will use various treatment modalities to restore a youthful facial V shape on pre-selected model patients. Using the latest techniques and various products, participants will learn the art of combination therapy to thoroughly assess aesthetic cases and create the most ideal treatment plans for optimal results.

Presented by: Natausha Spears, RN, BS; Corinn Singletary, PA-C, Ilanit Samuels, PA-C;

Treatments demonstrated in the Workshop:

- Kybella for Chin Fat Reduction
- Advanced micro-cannula techniques (NEW)
- Temples
- Tear Trough
- Mid-face augmentation
- Jawline augmentation
- Chin augmentation
- Eyebrow lift with filler

* Product included in group demonstrations

NEW! Intraoral Application of Hyaluronic Acid Workshop

Obtaining predictable and aesthetically pleasing interdental papilla is challenging in dental reconstruction. In this workshop, participants will work in groups to clinically assess and reconstruct interdental papilla deficiencies (black triangles) on pre-selected patients.

Presented by: Natausha Spears, RN, BS; Corinn Singletary, PA-C, Ilanit Samuels, PA-C;

* Limited to only 15 participants

* Product included for clinical session
