7TH ANNUAL IAFA
2019 AESTHETIC SYMPOSIUM

www.IAFA.co

NOVEMBER 8-9
MIAMI

INTERCONTINENTAL MIAMI
Dear members and guests,

It is with excitement and enthusiasm that the International Academy of Facial Aesthetics announces its 7th annual aesthetic symposium on November 8-9 in Miami, FL!

The meeting will be held at the beautiful InterContinental Miami and will feature various innovative topics and cutting-edge techniques. You’ll benefit from an incredible curriculum of lectures, live demos and workshops by various renowned aesthetic industry leaders. This meeting will also be a great opportunity to network and meet other aesthetic providers from around the globe.

The IAFA’s success would not be possible without supporters like you, and your participation truly demonstrates your commitment to ensuring the highest quality of care for your patients. On behalf of the entire IAFA team, we can’t wait to see you in November for an incredible 2019 meeting!

Warm regards,

Ana Natalie Delgado
Executive Director, IAFA

Facial Injectables Cadaver Hands-On Workshop  
*Presented by: Natausha Spears, RN, BS; Dr. Terry Alford, DMD; Corinn Singletary, PA-C; Marianne Azneer, PA-C*

Anatomical knowledge is fundamental to becoming a highly skilled, safe injector. The Facial Injectables Cadaver Workshop provides the highest level of anatomical training to expand your repertoire of facial injectables. Working in small groups, participants will dissect cadavers to identify pertinent anatomy (muscular structures, fat pads, dermal depths) and learn correct injection techniques to avoid complications and adverse effects.

This hands-on workshop, exclusively at the 2019 IAFA Aesthetic Symposium, will give participants a high level understanding of the essential anatomy of the face as it pertains to facial injectables.

**Workshop Bonuses:** This year the cadaver workshop will feature an interactive pre-dissection lecture featuring expert guided markings on mannequin heads. Participants will also receive a cadaver workbook to fully guide them through the workshop, serving as an excellent post workshop review.

NEW! Full Face Rehabs Workshop  
*Presented by: Prof. Dr. Marcel Wainwright*

During this cutting edge workshop, Industry leader and innovator Dr. Marcel Wainwright will teach attendees how to take facial injectables cases to the next level with various facial sculpting techniques. In addition to complete facial volume restoration including cannula use, Dr. Wainwright will teach his innovative techniques to reconstruct interdental papilla deficiencies (black triangles) using HA filler.

Dr. Wainwright with the Swiss firm Teoxane has developed an Hyaluronic Acid (HA) to treat gingival problems (Periodontitis and Gingivitis) and black triangle between teeth (gum recession). Wainwright is a fellow of the IADFE (International Academy for Dental and Facial Esthetics, NY) and President of the Swedish DIFNE (Dental International Filler and Neurotoxin Education).

Professor Wainwright has published more than 60 articles and scientific papers, contributed his works to public books and was part of the dental olympic team 2008 in Beijing and 2012 in London. He is a visiting professor of the universities of Guangzhou, Dalian, Mahidol, Leuven and Chapel Hill. His courses cover topics such as, soft tissue management with BTX and dermal fillers. His research focus is based on minimal invasive ultrasonic surgical procedures and intra-oral application of cross linked hyaluronic acid.

Combination Therapy for the Ultimate Non-Surgical Facelift: Technology Based Aesthetics - RF, Lasers, IPL, PRP with Micro-needling  
*Presented by: Dr. Anil Rajani, MD; Kara Moncrief, Global Clinical Trainer*

The most successful aesthetic providers optimize their aesthetic cases with various proven treatment modalities such as Radio Frequency, IPL, Lasers and PRP with Micro-needling. During this hands-on workshop, participants will learn how to combine various aesthetic therapies to create customized treatment plans for the most optimal aesthetic results.

In addition to didactic instruction, participants will learn and observe various Combination Therapy protocols on live models, including the use of IPL Laser, Radio Frequency and Platelet Rich Plasma with Micro-needling.

Team Training Workshop  
*Presented by: Dr. Mike Goisen, DMD, MBA; Ana Delgado, Expert Industry Consultant*

Our team training workshop is designed to teach your staff the key fundamentals needed to successfully launch the multi-billion dollar industry of facial injectables. During this A-Z training, our expert consultants will provide your team with invaluable business pearls that will set you aside from the competition. Your team will gain the confidence and knowledge needed to seamlessly implement injectables and be fully on board to help brand, market and sell these high-demand treatments in your practice.

Implementing Growth Factor Technology Lunch & Learn  
*Complimentary Workshop with Benev Gift!*

12:00 pm - 1:30 pm
NEW! Advanced Lip Rejuvenation Workshop

This workshop teaches attendees various advanced injection techniques to provide patients with the most optimal results for Lip Rejuvenation. Participants will learn how to use different modalities including Neurotoxins, various dermal filler options and PDO thread techniques to achieve the most comprehensive smile makeovers. Attendees will be able to better assess the appropriate size lips for patients’ facial anatomy, giving them natural looking, well-proportioned lips and surrounding areas.

Absorbable PDO Threads Training Workshop*
Facilitated by: Marianne Azneer, PA-C, International Injectables Trainer; Dr. Kian Karimi, MD, FACS

This advanced workshop features training on Absorbable PDO (Polydioxanone) threads, an innovative, minimally invasive & effective technique to achieve, safe in-office tightening and repositioning of the skin. PDO threads are placed in the superficial tissues to lift and tighten sagging skin tissue. The procedure requires no surgical skills and delivers great results with virtually no complications. The threads are placed in the superficial tissues and can be used anywhere on the face and body.

The procedure is performed in-office without any anesthesia. The treated area then mounts a controlled inflammatory response to the threads to provide the desired effect. Each participant will have the opportunity to participate in treatment and observe various cases for maximum learning during the 4.5 hour workshop.

*Advanced Practitioners Only
Certificate of completion will be supplied to each attendee as part of the registration fee.

Extreme Makeovers: Facial Sculpting Workshop
Presented by: Natausha Spears, RN, BS; Corinn Singletary, PA-C; Jenya Titova, PA-C

Working in small groups, participants will use various treatment modalities to restore a youthful facial V-shape on pre-selected model patients. Using the latest techniques and various products, participants will learn the art of combination therapy to thoroughly assess aesthetic cases and create the most ideal treatment plans for optimal results.

Treatments demonstrated in the Workshop:
- Kybella for Chin Fat Reduction
- Advanced micro-cannula techniques (NEW!)
- Temples
- Tear Trough
- Mid-face augmentation
- Jawline augmentation
- Chin augmentation
- Eyebrow lift with filler

*Product included in group demonstrations

TMD & Myofascial Pain Interactive Workshop
Facilitated by: Dr. Mike Golsen, DMD; Dr. Ricardo Perez, DDS; Dr. Terry Alford, DMD

This workshop offers a step-by-step comprehensive way to identify, examine, evaluate and treatment plan for patients with TMD and myofascial pain in your practice. Identify trigger points and learn the practical application of neurotoxins to manage TMD symptoms.

Understanding the source, pathways and overlap of the cranial nerves provides the foundation for understanding myofascial pain. As a workshop bonus, instructors will provide an in-depth review of anatomy, including demonstration of underlying musculature and bones on a pre-dissected cadaver head.

Workshop Bonus: *Includes Anatomy Evaluation on a Cadaver
While You’re Here...

Soak up some Florida sunshine at the rooftop pool deck, where you can swim or relax in the pool. Let the stunning Biscayne Bay location inspire you to explore the gorgeous scenery, then dine al-fresco at Bluewater Cafe, the on-site restaurant and bar.

Toro Toro

Modeled after the Dubai Toro Toro, chef and owner Richard Sandoval’s unique culinary spin on South and Central American ingredients are carefully crafted into tantalizing small-plate dishes to share. Stop by Sundays for Bottomless Brunch with endless eats and cocktails, plus sample the lunch buffet weekdays.

Rooftop Pool and Cafe

Soak up some Florida sunshine at the rooftop pool deck, where you can swim or relax in the pool. Let the stunning Biscayne Bay location inspire you to explore the gorgeous scenery, then dine al-fresco at Bluewater Cafe, the on-site restaurant and bar.

mySpa

mySpa is the premier spa in Miami, with 10 spa treatment rooms, including a unique SpaJet2 hydro capsule and a couples suite.
